For War in China.

New York, June 21.—Recruits are being rushed to Ft. Slocum in Long Island sound, which is the general rendezvous for men enlisted at stations east of the Missiesippi river. In addition to the regular garrison of the fort consisting of battery L. of the Seventh United States artillery there are about 300 new men at the fort, and at least 2,000 more are expected by September. In order to facilitate drilling and transportation, the recruits will be formed into one or more provisional regiments.

The men have been enlisting for service in the Philippines, and because of the report that the fighting there is at an end, there have been may desertions. The spirits of the recruits, however, have picked up since there is a prospect of their being sent to China. The desertions now are fewer than at any time within a year.

Independence, June 21.—The case of the Montgomery county commissioners vs. Joshua Perkins, which has been on trial in the district court for several days, was given to the jury, and the jury returned a verdict in favor of the county commissioners.

The case was one in which the county commissioners tried to take the management of the county poor farm away from Joshua Perkins. Perkins was appointed manager of the county poor farm for fifteen months by the Populist county commissioners about a year ago. farm for fifteen months by the Populist county commissioners about a year ago. About four months later, however, when the Republican board of county commissioners went into office they tried to oust Perkins and appointed H. A. Waggoner to the management of the farm. Perkins would not leave the farm and still retains possession of it, and the county commissioners brought suit to remove him.

Mr. Tapp insisted when there was an effort made by the railroads and the farmers to ship in harvest hands in great numbers that it was all a scheme Now he says things have turned out just as he predicted and last night he received information that harvest wages in Summer county had been cut and nearly half of the men shipped in were unable to find work.

He says it is an outrage to fill this section with men unable to get work. Many of them came long distances on promise of good wages and plenty of work.

Philadelphia, June 21.-In the opinion

Philadelphia, June 21.—In the opinion of Senator Davis, of Minnesota, chairman of the senate committee on foreign affairs, the situation in China is even more grave than published dispatches would indicate and may develop into an international problem such as the powers have not had to deal with in many years.

"No man can tell what will come out of the present situation in China," said Senator Davis. "I shall be agreeably disappointed if the immediate consequence does not result in complications which it will take years to straighten out. Moreover, generations to come may find that in awakening China the western world has brought into exletince a giant which will insist upon taking part in affairs at inopportune taking part in affairs at inopportune

That the powers are in a dilemma

"That the powers are in a dilemma which they would have been glad to avoid may be taken for granted. It seems inevitable that China will be partitioned. Certainly the acting empress will be dethroned. This cannot be done without a war, which will probably repeat itself many times.

"It must be remembered, too, that in China lives fully one-fourth of the world's population. The people there have a civilization of a certain sort that was in existence when the wolf was suckling Romulus. Until now the newer civilization has made no impression upon China. If we force upon the yellow race our methods, and in China they are accepted as readily as they have been in Japan, we will create a force which will be sure to work a great influence on the future history of the world. I look upon the present crisis as more important than any that has arisen since our civil war."

"We recognize the right of all people to defend with arms of warfare their liberty and independence. We consider every attempt through methods of war at territorial expansion as opposed to civilization as an act of brute force. We condemn every effort to extend the biessings of civilization with sword and gun as one based upon hypocrisy and greed for gain. We protest against the policy of conquest of this government and against every attempt towards expanding the domain of the United States by force."
